5-Day Precipitation Forecast & River Flood Status

SR ROC
REGIONAL OPERATIONS CENTER

Note: Even though the image displays 5 days of forecasted rainfall, river forecasts only include 1-2 days of rainfall

Minor river flooding will continue across portions of LA, AR, and TX with flooding of forested areas, low lying roads, woodlands, and crop acreage.

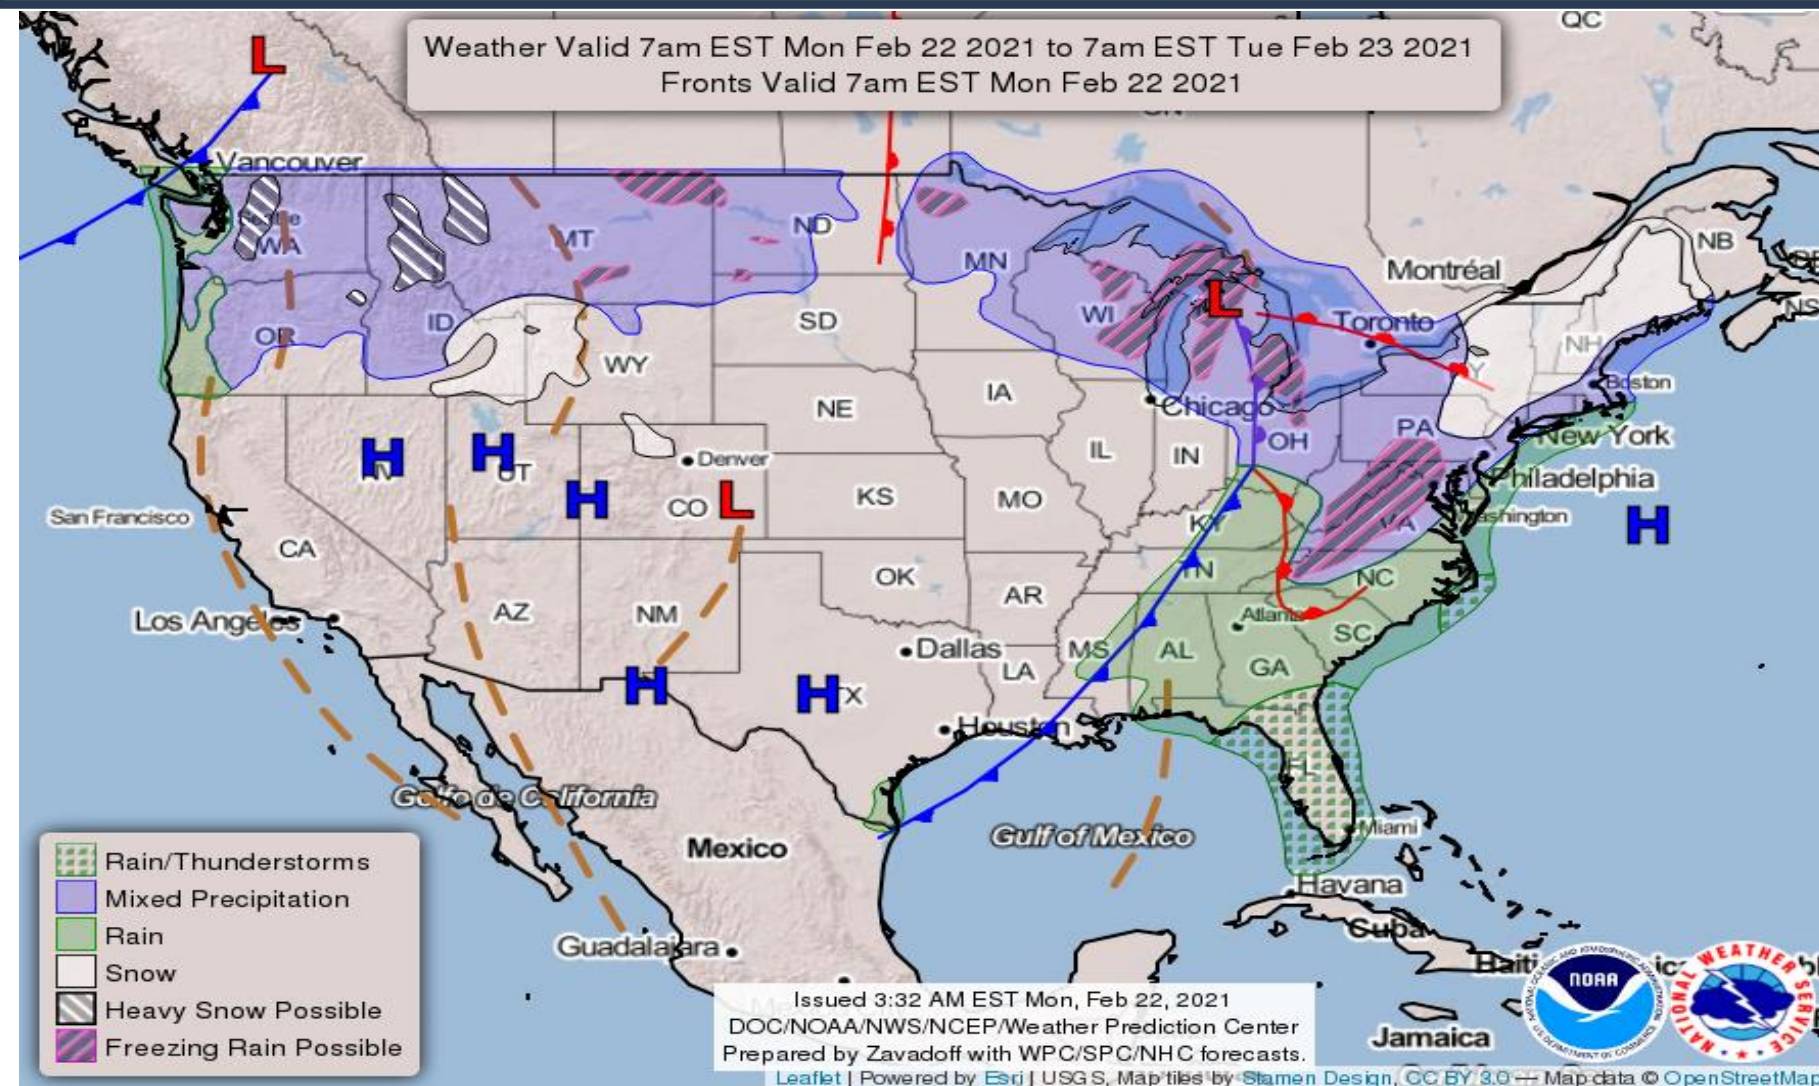

The Pearl River flooding in SE LA will also impact the Bogue Chitto National Wildlife Refuge and about 20 homes will be threatened along the left bank of the Pearl River near Pearl River.

All of the points showing major in OK and TX are bad data!

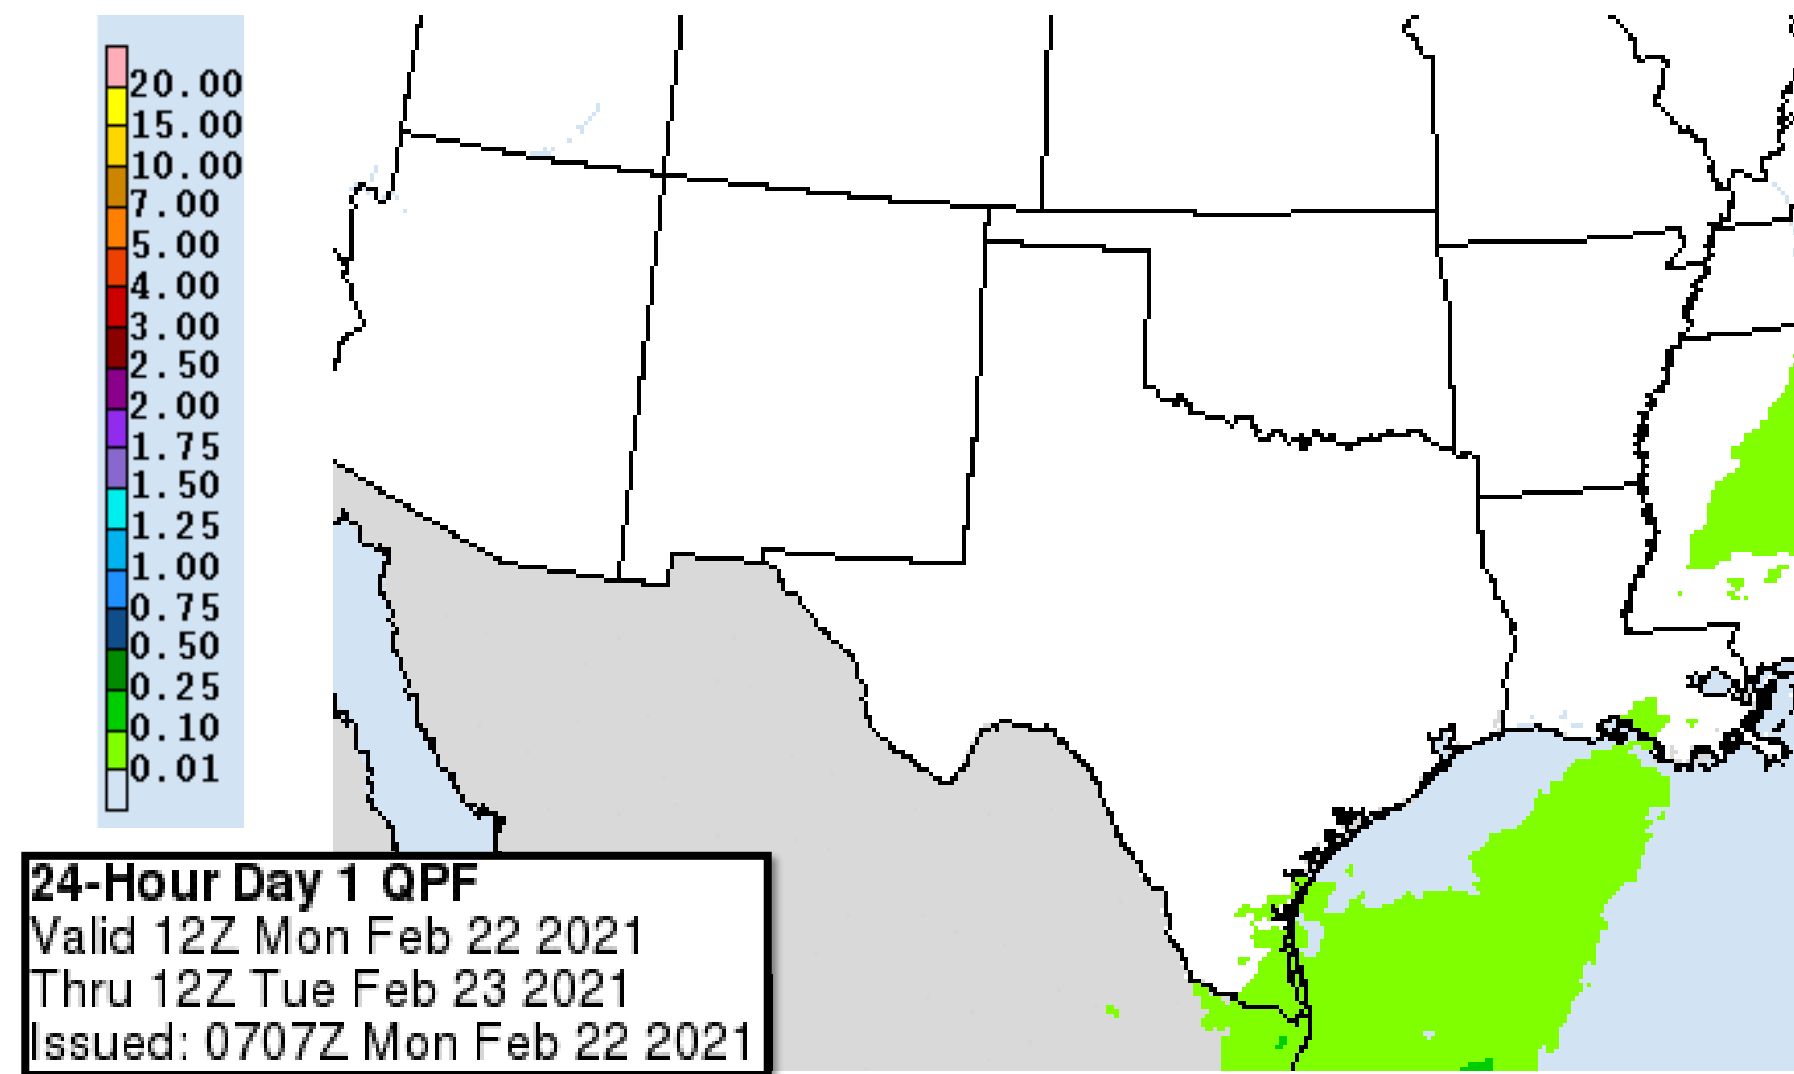

The two points in NW TX showing minor and near flood are also bad data!
